*Rosie

It was whispered yesterday, in the presence of the International Brown Owl Queen Exume was having Durham miners hume an image from the raw hole wrought to form a now, clear teddy bomb.

In the absence of her bonne amie Ali Capeau and without the shining expector-ample of the late Chick Grub she intends to take this image to her ample

rib cage on those naughty nights when passion's faded rose descends upon her like some lost fragment of transparent latex.

Questioned at her country bungalow called "Chukka" early in her leak, she said "Our friendship is merely sexual," and then, patting the tail fin of her syphallic companion, she added with her own inimitable belch, "We're just a good fit."

A party of cruel children were slapped down a wineshaft last Thursday by an unexpected fall of national morality. Up to their neckers in a residue of South African perfume,

they kept up their trousers by singing repeated choruses of their old school song "Don't cock your leg over Father, you'll squirt his masculine pride."

Police and hiredmen who had been scratching all night in an attempt to rotch, were rewarded by the strains of this fine old tune filtering through a delicate crust of tealeaves and bottletops early Friday morning.

Princess Allykhander is expected to visit the sight at her week end thus showing herling wart of loyalty in extremities of this hind.

Our picture on the left shows the Hon. Bunny Gauze, one of the whrighter bhoers in the London Seasoning, trusting her gl- and down the houses of Huards Onnicer Dicky Titte-Snibble who has just "Come His Lot," (an old Sanhurst custom.) Gears to the gay gupple and the gob-blinents of the wizened.

That's hole for this tine, smokes, so hairy- ho and keep dying.

HUMAN DELEGES MAKE REPEATED BIDS FOR SURVIVAL !!!!!!!!!
ACT NOW OR PERISH, SAYS EAST GERMAN POPE-----

A Government spokesman said today that outbreaks of the dreaded humanity had occurred in several parts of this world of ours. One of the main symptoms of this phenomenon is the appearance of pieces of paper marked as in the pictures below. If found, such morsels should be approached with the usual rubber sucker on the end of a hinged bamboo cane. Then, with the nose and eyes masked in sponge saturated with the mixture of urine and custard recommended in Civil Defense pamphlets, remove the offending object to a marshy place and return to your television set as quickly as possible in order to make up for time lost in this tiresome but necessary precaution.

WHICH SKIN PROBLEM IS YOURS ? To-day few of us manage to avoid skin problems entirely. Our modern way of life is very worn under the regular nappy (terry or disposable)--the outer nappy is wetted but the baby stays dry, warm and comfy. Baby's urine goes through and is absorbed by the outer nappy--but cannot go back--it is as simple as unsightly skin afflictions. This is a modern problem. Here at last is the modern SMASH-HIT 12gns SUPERB SPANISH SHOTGUN. HECKEL SYSTEM BASSOONS 298 IOs. For two days only, sometime during October or November, just before dawn the sea surface swarms with rainbow coloured worms wriggling flirtily self-adhesive Eyclure Lashes. Hand made in all directions. These are just the spawning portions of the season, broken away from the whole worm which remains on the sea floor. The boats put out "Aquatheron," a simple revolutionary approach to all-over skin care and this strange harvest is scooped up by every available means, rushed ashore and either eaten raw or cooked. Fixed on in a moment and stay on. In new Samoa the Palolo worm harvest is the great event of the year. Hard on the skin. Warm room frequent baths, constant soaping detergents...all these, I am given to understand, smell like fried fish and taste like spinach.
